## **INVITATION**

### **NARA COMES TO LONDON**

Skandium, the London home of stylish Scandinavian design, is hosting the UK launch of Nara, a new range by award-winning designer Shin Azumi, produced by Danish manufacturer Fredericia.

The launch at Skandium Brompton Road will see the Japanese designer talk to assembled guests about his Danish inspirations, the initial concept and its progression to the final range.

The Nara collection is inspired by the sacred deer roaming freely around the ancient Japanese capital from which the name is taken. It is a beautiful fusion of Japanese elegance and Danish sleek simplicity. We are giving away a Nara chair to a lucky winner of a draw during the evening.

We hope you will be able to join us for Japanese – Danish refreshments and to view this beautiful range.
